Judges Remarks

Overall a great mix of medium. Works on paper show an excellent variety of talent.

More attention should be paid to presentation.

Examples: framing and unfinished edges.

A lot of promising talent is present in this show.

Away “trippin” with Their Talvera Friends”
HM: Elna Smith - “Symphony”

Juror’s Statements:

Jim Seigler

Traveling and painting have been a part of my life for as long as I can remember. As my commitment to painting has consumed so much of my life, it seems only natural that my work reflects the travel experiences that I have enjoyed, the people who have contributed to those experiences and the many places and things that impressed me on these journeys.

As no artist can really copy or better nature; I only try to express my impression of what I see or feel at the time. I like to look for situations of man and/or animals in nature as subject matter. I use what I see or feel. Sometimes I will use oil, acrylic, charcoal, chalk or whatever medium works best at the time.

Jimmy Peña

“I’m infatuated with hyper-realism. However, there’s always more to perception than how something may physically appear.

I like the surprise element that evolves during this process.

Recently, I find that the surface helps reveal images as a starting point. Then my mind uses these things in odd ways to expose narrative thought.
